

## Student information handout

# Advice Pamphlet – Babies and Immunity

You are going to create an advice pamphlet that can be given to new mothers explaining the importance of immunity in their babies.

Your pamphlet should include the following:

- An explanation of what immunity is, including a diagram.
- Information on the importance of breastfeeding for prevention against disease.
- Details of how vaccinations work and why they are important.

It is up to you how to structure your pamphlet, but below is a suggestion for how to lay it out, using an A4 sheet of paper folded into 3 pieces:
